

Payroll Services by Liberata

Liberata processes over 1,000,000 payslips per year for public and private sector organisations and has been doing so for the last forty years. We currently manage more than 350 separate payrolls and pay in excess of £1 billion to payees annually.

Our solutions are different as they are highly secure, flexible and accurate – for over 25 years we have managed the payroll for some significant and well known figures across government with a service accuracy of over 99.8%. Liberata can specialise in the delivery of highly complex and sensitive payroll solutions.

Liberata offers four tiers of service: Payroll Bureau, Fully Managed Service, Specialist Services and our Premium Service – allowing our clients to pick the solution that meets their current and anticipated needs. All services can be procured alongside our suite of HR Services.

All HR and Payroll services can either be procured directly or via the Crown Commercial Services G Cloud 12 Framework.

**We manage
more than 350
separate
payrolls**

**We pay in excess
of £1 billion to
payees
annually**

Since working with Liberata, errors in payroll runs have reduced to virtually nothing - where issues arise we have found the team is very responsive and easy to engage with. They provide a very cost-effective and accurate service.

Vicky White - Strategic HR Lead, Burnley Borough Council
